

NovaTech Solutions Enterprise Knowledge

Document: Device Security Policy | Department: IT | Classification: Internal

1. Disk Encryption

All company-issued laptops must have full disk encryption (FileVault for Mac, BitLocker for Windows) enabled at all times.

2. Lost Devices

If your company laptop is compromised or lost, you must immediately report it to the IT Security Operations Center (SOC) at security@novatech.com.

3. Unauthorized Software

Employees are strictly prohibited from installing unapproved software on company devices.
